

MELANIE INGLESSIS

Artists / People directory • 10 profiles

Companion brief to the first MB Studio portfolio document • 22 September 2026

Goal: build a dedicated PEOPLE / ARTISTS section in the concept portfolio. Each person gets a profile page that can aggregate every verified Mélanie Inglessis project associated with that person.

Important: “current” means the person is named in Mélanie’s current Forward Artists bio as of this research. “archive” means documented past work but this brief does not claim an ongoing client relationship. Do not turn archive names into “current clients.”

RECOMMENDED DIRECTORY ORDER

Jenna Ortega • Ana de Armas • Olivia Wilde • Kate Hudson • Karlie Kloss • Ruth Negga • Rosamund Pike • Natalie Portman • Lea Michele • Britney Spears

The first eight are especially defensible because Forward Artists currently names them in Mélanie’s client roster. Lea Michele and Britney Spears are included as strong archive relationships to reach the requested ten while broadening the site into television/music history.

01 JENNA ORTEGA

Actor • CURRENT / CORE

One of Mélanie's strongest current celebrity relationships. Forward Artists includes Jenna in Mélanie's current client roster, and recent verified work spans Vogue Mexico, Vogue, The Cut, Wednesday S2 press/red carpet and Sundance 2026.

Image direction: Use a recent editorial portrait as the artist-page hero. Best visual pools: Vogue Mexico September 2025; Vogue "24 Goth Hours"; The Cut; Esquire U.S. 2026.

Recommended page structure: large portrait → name/role → short relationship note → project grid filtered to this person → selected credits → back to People.

VERIFIED SOURCES / IMAGE REFERENCE PAGES

- [Vogue Mexico](#)
- [Vogue](#)
- [The Cut / Models.com](#)
- [Sundance 2026 / Vogue](#)

Cursor rule: use these pages to identify projects and image references. Do not invent a collaboration, year, publication, photographer or product. If an image is downloaded for the private concept, store it locally in the repo and retain source/credit metadata.

02 ANA DE ARMAS

Actor • CURRENT / CORE

Forward Artists lists Ana de Armas among Mélanie's current clients. Their documented work includes major red carpets and editorial/cover work, including the No Time to Die premiere, Blonde premiere, Golden Globes and WWD Weekend.

Image direction: Use a modern red-carpet or WWD Weekend image. Keep a project carousel underneath the portrait to show the longevity of the collaboration.

Recommended page structure: large portrait → name/role → short relationship note → project grid filtered to this person → selected credits → back to People.

03 OLIVIA WILDE

Actor / Director • CURRENT / LONG-RUNNING

Forward Artists lists Olivia Wilde among Mélanie's current clients. Vogue has described Mélanie as part of Wilde's longtime glam squad, and their documented work spans red carpets and events over many years.

Image direction: A strong people-page choice because the relationship is both recognizable and well documented. Use a red-carpet/getting-ready image rather than a generic headshot.

Recommended page structure: large portrait → name/role → short relationship note → project grid filtered to this person → selected credits → back to People.

VERIFIED SOURCES / IMAGE REFERENCE PAGES

Cursor rule: use these pages to identify projects and image references. Do not invent a collaboration, year, publication, photographer or product. If an image is downloaded for the private concept, store it locally in the repo and retain source/credit metadata.

04 KATE HUDSON

Actor • CURRENT / RECURRING

Kate Hudson appears in Mélanie's current Forward Artists client roster. Public beauty coverage documents Mélanie creating Hudson's Glamour cover makeup and multiple red-carpet looks.

Image direction: Use a clean beauty-focused crop. The 2013 Glamour cover gives a strong editorial reference; later red-carpet imagery can add variety.

Recommended page structure: large portrait → name/role → short relationship note → project grid filtered to this person → selected credits → back to People.

Cursor rule: use these pages to identify projects and image references. Do not invent a collaboration, year, publication, photographer or product. If an image is downloaded for the private concept, store it locally in the repo and retain source/credit metadata.

05 KARLIE KLOSS

Model / Entrepreneur • CURRENT CLIENT

Forward Artists includes Karlie Kloss in Mélanie's current client roster. Their work includes Met Gala beauty; Mélanie also appeared in Klossy content around a Met Gala makeup test/tutorial.

Image direction: This page gives the portfolio a fashion-model dimension distinct from actors. Prefer Met Gala imagery or beauty close-ups.

Recommended page structure: large portrait → name/role → short relationship note → project grid filtered to this person → selected credits → back to People.

Cursor rule: use these pages to identify projects and image references. Do not invent a collaboration, year, publication, photographer or product. If an image is downloaded for the private concept, store it locally in the repo and retain source/credit metadata.

06 RUTH NEGGA

Actor • CURRENT / AWARDS

Ruth Negga is in Mélanie's current Forward Artists roster. Their documented awards-season work includes the Golden Globes and Oscars, with Mélanie explaining the creative direction and products in detail.

Image direction: Use an awards-season portrait. This is particularly useful for showing Mélanie's ability to build a makeup concept around couture and jewelry.

Recommended page structure: large portrait → name/role → short relationship note → project grid filtered to this person → selected credits → back to People.

07 ROSAMUND PIKE

Actor • CURRENT / AWARDS

Forward Artists lists Rosamund Pike among Mélanie's current clients. A particularly well-documented collaboration is Pike's 2015 Oscars look, where Mélanie built a Grace Kelly-inspired makeup direction; later work includes the 2024 Golden Globes.

Image direction: Ideal people-page imagery: Oscars 2015 or Golden Globes 2024. Both emphasize skin, sculpting and sophisticated red-carpet beauty.

Recommended page structure: large portrait → name/role → short relationship note → project grid filtered to this person → selected credits → back to People.

08 NATALIE PORTMAN

Actor • CURRENT / DIOR BEAUTY

Natalie Portman appears in Mélanie's current Forward Artists client roster. Verified coverage includes Dior Beauty makeup by Mélanie for the 2018 Golden Globes and other Dior-linked red-carpet appearances.

Image direction: Very useful for the site because it adds a clear luxury-beauty/Dior dimension. Prefer a Dior-event or Golden Globes image.

Recommended page structure: large portrait → name/role → short relationship note → project grid filtered to this person → selected credits → back to People.

09 LEA MICHELE

Actor / Singer • ARCHIVE / LONG-RUNNING

A strong archive relationship. E! reported in 2012 that Mélanie had already worked with Lea Michele for three years. Teen Vogue also documented Mélanie's work for Michele at the Emmys, Met Gala and SAG Awards.

Image direction: Use as an archive artist page rather than implying she is a current client. A red-carpet close-up works best.

Recommended page structure: large portrait → name/role → short relationship note → project grid filtered to this person → selected credits → back to People.

Cursor rule: use these pages to identify projects and image references. Do not invent a collaboration, year, publication, photographer or product. If an image is downloaded for the private concept, store it locally in the repo and retain source/credit metadata.

10 BRITNEY SPEARS

Singer • ARCHIVE / MUSIC

A useful music-industry archive page. Billboard published tutorials with Mélanie recreating Britney Spears' Glory and I Wanna Go looks, and Forward Artists' motion page credits Mélanie on Britney's Slumber Party and Make Me videos.

Image direction: This page gives the People section a music dimension. Use an official editorial/music-video reference image and label the relationship as archive work.

Recommended page structure: large portrait → name/role → short relationship note → project grid filtered to this person → selected credits → back to People.

DATA MODEL FOR CURSOR

Suggested structure for each person record:

```
slug
name
profession
relationshipStatus: current | archive
heroImage
heroImageSource
summary
projectSlugs[]
sourceUrls[]
```

Create the People directory from data rather than ten hard-coded pages. Each person page should query the same central project dataset used by WORK. That way, a project such as “Jenna Ortega / Vogue Mexico / 2025” appears both under WORK and automatically under Jenna’s PEOPLE page without duplicated content.

NAVIGATION RECOMMENDATION

HOME / WORK / PEOPLE / ABOUT / CONTACT

On mobile, PEOPLE should open a clean portrait grid. The card only needs the person’s name and profession. Avoid celebrity biographies: this is Mélanie’s portfolio, so every page should remain focused on **her makeup work with that person**, not become a fan/biography site.

END

This document complements the first content brief. Together they provide the initial project dataset, portfolio categories, biography/contact content and a ten-person People taxonomy for the Cursor implementation.
